

# Activities

In this term my group and I have come up with several ideas for games, the games we have come up with are.

## Games

- Memory Games
- Role-play food & drink
- True or False
- Make your own game
- Quizzes

## Big Projects

### Cooking –

You can go in groups and start planning out a French dish. You have to get a French recipe and certain people start on Starters, Main & Dessert. Then the groups have to make a menu for homework or make it in your lesson.

### Hunt

Hide the word and the object or food around the classroom or field. You have to find the word which matches with the object or food.

## More Games

### Blockbusters –

You move across the board every time you answer a question right. There are letters on the board and you have to have an answer beginning with that letter.

### Rounders –

When you hit the ball you go and round and tap the poles. Whatever pole you stay at, you have to say a French word on food or drink.

### Weakest Link –

Getting asked questions on food, drink, sports and smoking.

### Hot Potatoes –

Start of with a French word and you pass the ball to another player they have to associate with the word previous.
